Carpet Extractor - Bissell BG10 - Two Motors - Two Large Capacity Tanks - Ergonomic Handle

Description :

Codes :

Reference: BG10
EAN13: BG10
UPC: -

Description détaillée :

Get professional-grade carpet cleaning any time you want with the BISSELL Big Green Carpet Cleaning Machine; it even outclasses the leading rental carpet cleaner. The large capacity clean and dirty water tanks mean you get your best deep clean with fewer trips to the sink. Remove deep-down dirt from carpet with rotating DirtLifter® PowerBrushes that clean in both the forward and backward pass and stay comfortable while cleaning, thanks to the ergonomically designed, adjustable tank handle. The powerful clean you want is now available in your home. And BG10 uses less water than other smaller carpet cleaners to clean an area of the same size, making it more environmentally friendly too.

* Bissell BG10 is the same machine as the Bissell 86T3

Features

- Two motors: one for the rotative brush and one for suction
