## Description détaillée :

Johnny Vac is proud to present the canister vacuum cleaner PARKÈ. With the PARKÈ, everything is in the electrostatic broom specially designed for the hard floors ! Indeed, with the suction created by the roller brush high speed, the performance of this vacuum cleaner is at the top! This appliance is powered with one of the most silent motors of canister vacuum type. But what makes the PARKÈ pleasant and easy to use it is the selector of the suction level straight from the handle; powered by two simple battery, this selector who allows you to choose the level of suction you need. Parkè is not only well design, it is a real joy to have it.
