UPC: 628383067009

## Description détaillée :

This premium antimicrobial lotion soap is effective in killing harmful bacteria or germs while reducing the risk of cross-contamination. This product is medicated to thoroughly clean the skin and protect it from certain bacteria. It eliminates impurities to provide antiseptic cleaning. BIO-LUX is specially formulated with high-quality surfactants, premium fragrance and neutral pH, as well as emollients and humectants, to leave skin soft, supple, clean and smelling fresh. Excellent for use in hospitals, food plants, restaurants, schools, nursing homes, institutions, industrial plants, hotels, offices, health clubs, restrooms and anywhere antiseptic products are used. Characteristics

- Contains 0.1% Triclosan to eliminate harmful bacteria and germs
- Pleasant and light orange fragrance
- Suitable for use in food factories in Canada
- Economical 4 L (1.06 gal) Size
- Phosphate-Free

- Biodegradable
